Anton Loiko

SOFTWARE ENGINEER | FRONT-END | JAVASCRIPT DEVELOPER

· anton.loiko.engineer@gmail.com ·
Winnipeg, Manitoba

SUMMARY

A highly skilled and experienced Front-end Developer with 6+ years of experience in creating and implementing cutting-edge web applications. My expertise includes React, TypeScript, Next.js, and JavaScript, with a strong command of tools like Redux Toolkit for efficient state management.Strong technical skills in developing reusable components and customizing UI libraries. Adept in visual design, cross-platform compatibility, and accessibility. Excellent communicator, able to work closely with designers, testers, and the rest of the product team. My ability to prioritize tasks, and meet deadlines ensures that I consistently deliver high-quality work. As a dedicated professional with good communication skills and a passion for accuracy, I will be a valuable asset to your company, I will bring dedication, expertise, and a friendly attitude to your team and growth.

PROFESSIONAL EXPERIENCE

Software Engineer | Front-end

Feb. 2021 - May 2024

Medentee Limited - HealthCare community

Responsibilities:

- Contributed to the development of a secure and user-friendly communication platform and collaboration tools for healthcare professionals. Utilized modern IT technologies to enhance efficiency and interaction among healthcare professionals.
- Participated in the development of a comprehensive solution, encompassing secure messaging, voice and video calls, file sharing, networking, case management, and access to the international community.
- Developed over 50 reusable components reducing development time by 20% and ensuring consistency across the platform.
- Refactored and re-engineered existing JavaScript/HTML/CSS code of 5 specific modules, resulting in a 25% increase in performance and a reduction in bugs and errors.
- Worked closely with systems analysts, engineers, and programmers to understand constraints, develop capabilities, and solve software problems. Insisted on simplifying many features. As a result, this reduced development time for the entire team.
- Worked closely with the team, contributing to daily stand-ups, code reviews, and sprint planning, resulting in timely and successful project delivery.

Javascript / Typescript / Front-end / React developer

Sept. 2018 - Feb. 2021

Technorely Inc. - Canadian-Ukrainian IT company

Responsibilities:

- Contributed to the in-house UI library by creating reusable components, improving development speed.
- Modified company web applications and processes to increase productivity.
- Participated in code reviews with the product team, and gained feedback from senior engineers and experience in writing custom scalable codebase.
- Helped create powerful UX/UI solutions by discussing and working closely with the design team.
- Established best practices for coding standards within the team, improving code consistency.
- Mentored interns and junior software developers through training, design reviews, and code reviews, boosting team productivity by 10%

Java-script / Front-end / React developer

Sept. 2018 - Dec. 2018

Under **NDA**

Responsibilities:

- Worked with legacy code
- Attended weekly meetings and provided progress reports.
- Added new features to an existing project
- Fixed bugs in polygon rendering on Leaflet.js maps
- Identified and addressed customer needs promptly and efficiently
- Analyzed and fixed performance issues
